

Same-Day Cancellation/No-Show Fee Policy

At Uderm, we understand that circumstances arise which require cancelling or rescheduling an appointment. When a patient misses an appointment without notifying our office, it impacts our ability to provide quality care and services to others.

To ensure efficient and timely appointments for all patients desiring our care, we kindly ask that you notify us at least 1 day prior if you need to cancel or reschedule your appointment.

It is always our goal to work with you to find a convenient time for your visit, rather than having to charge a missed appointment fee. Your timely communication allows us to offer available slots to other patients in need of care. We truly appreciate your cooperation and look forward to serving you.

Beginning June 1, 2025, missed appointments without proper notice will be subject to fees:

- Missed Clinic/Cosmetic Visits \$25
- Missed Surgical Visits \$150

Same-Day Cancellation/No-Show fees are the patient's responsibility and are NOT billable to insurance/Medicare. Patients are responsible for paying these fees prior to scheduling future appointments. Appointments cancelled or rescheduled prior to the date of service incur NO fees.

I understand Uderm's Same-day Cancellation/No-Show Fee policy, and that *without* appropriate notification of cancellation or rescheduling, I will be charged the fee listed above. I also understand that fees charged will need to be paid prior to scheduling future appointments.
